Education

VIT-AP University India
Bachelor of Technology - BTech, Computer Science and Engineering *Aug. 2023 – Expected Jun 2027*

Experience

TechtoGreen Drone & Robotics Private Limited Amaravati, Andhra Pradesh, India
Software & AI Engineering Intern *Dec. 2024 – May 2026*

- **Backend Architecture:** Engineered a scalable FastAPI backend using Python to generate dynamic agronomic reports, integrating robust internationalization pipelines.
- **Systems Integration:** Synchronized parallel model inference with MAVLink telemetry and YDLIDAR G2 point clouds, developing custom interfacing applications in C++.
- **Edge OS Deployment:** Deployed optimized machine learning models directly onto Linux-based edge devices, managing system resources and memory for real-time processing.

The Machine Learning CLUB VITAP Amaravati, Andhra Pradesh, India
Technical & Project Team Member *Oct. 2023 – May 2025*

- Engineered a 3D software environment demonstrating strong object-oriented design by implementing state-persistent UIs and dynamic AI pathfinding algorithms.
- Hosted on GitHub: github.com/MLC-VIT-AP/PAC-3D

Software & Systems Projects

AI SIEM & MDR Pipeline | *Python, Scikit-Learn, SHAP, LIME* Jan. 2026 – May 2026

- Engineered an AI-driven SIEM framework in Python that normalizes heterogeneous telemetry across network flows, web apps, and OS logs into a standardized JSON schema.
- Designed a central Fusion Engine utilizing a temporal sliding window to correlate cross-layer attacks, showcasing strong data structure manipulation and algorithmic logic.
- Hosted on GitHub: github.com/Meehir5907/Chakshu

Linux Edge Systems & OS Configuration | *Python, Golang, Bash, Arch Linux* Ongoing

- Configured and maintained custom Arch Linux environments, writing automated Bash and Python scripts for system administration, kernel tuning, and cron job scheduling.
- Deployed custom software on a headless Raspberry Pi 5 running Linux for an autonomous submarine, utilizing `lgpio` and Python to interface with hardware controllers.

Awards & Achievements

1st Place (Dept. of AI/DS), Innovative Model: Secured 1st place at Siddhartha Academy of Higher Education Innovation Day (Oct. 2025) in department of Artificial Intelligence / Data Science.
AI Autonomous Hackathon 2025: Exhibited an AI model; received a Letter of Appreciation from AIMERS for problem-solving in AI (Feb. 2025).
Ideathon 2K25: Participated in the innovation showcase at Chalapathi Institute of Engineering & Technology (Mar. 2025).

Technical Skills

Languages: Python, C, C++, SQL, Go, Bash, Zsh, Lua, Kotlin, GDScript
Systems & OS: Linux (RHEL exposure, Arch, KVM, Kernel Tuning, Cron), Git/GitHub, FastAPI, QML, Volatility 3, AVML
Software Engineering: Object-Oriented Design, RESTful APIs, Agile workflows, Systems Integration
AI & ML: PyTorch, TensorFlow, Keras, OpenCV, YOLO, MediaPipe, FAISS, Transformers, SHAP, LIME
